**This Lamp Costs More But It Is Worth More**

The "Brilliant Search Light" costs more and is worth more than other lamps of this type. We recommend it to anyone who can afford the best hunting lamp on the market.

Exclusive features found in this lamp only: A system of double lenses (large convex lens and bull's-eye lens), giving a widespread light or a powerful concentrating beam by simply opening or closing a door; darkening door to shut off the light instantly; headpiece with concealed ventilation so light will not shine out in all directions, yet ventilated to such an extent that it is 50 per cent cooler in operation than similar lamps; rotating joint for adjusting headpiece up or down; burner base that can be removed without disturbing the focus point; removable solid nickel silver reflector; non-kinkable gas hose, and automatic generator that needs no adjusting, and will not rust, as it is all made of brass.

**Strong, Safe, Powerful, Dependable  
Hunter's Head Light**

Showing Lamp on Hat  
Ready for Use

The Last Word in Carbide  
Hunters' Head Lamps  
**Style 3—Double Lens**

Price  
**\$7.90**  
Postpaid

**Cannot Blow Out**

Flame is protected by a system of double lenses, making it impossible for flame to flicker or blow out in strong wind.

**Does Not Get Hot**

Constructed so that no heat reaches the head band, and ventilated to such an extent that lamp can be handled with bare hands.

The above Lamp is equipped with Double Bull's-eye Lens

**If you Want the Above Lamp with Single Convex Lens,**

HERE IT IS—Style 3, Single Lens Lamp

Same as Style 3, listed above, without the Bull's-eye.

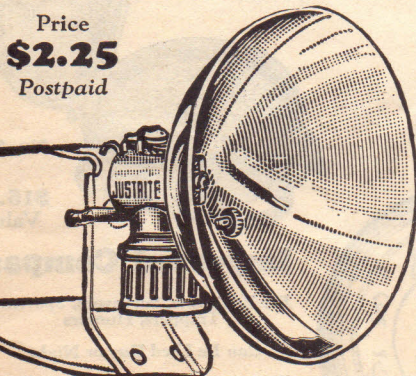

**Price, \$6.98**
